

ERA Stirling Properties providing VisualTour

COVINGTON —

About 90 percent of home buyers use the Internet to search for their next home, according to the National Association of Realtors.

What do they spend their time exploring? Homes with virtual tours and multiple photos.

ERA Stirling Properties is providing home buyers with VisualTour.

Each VisualTour can be seen on Yahoo! Real Estate Classifieds, REALTOR.com, GoogleT and numerous other web site destinations, all designed to give each home listed with ERA Stirling Properties the maximum exposure needed to ensure a successful sale for their clients. All VisualTours can be distributed to popular video sharing websites like YouTube, Google Video, and AOL Video.

VisualTour also includes a viewing statistics report for each homeowner.
