SAFE HARBOR

Mike Stark, General Manager of Nova International Shipping Services, was contacted by Nancy Bowman, Customer Solutions Coordinator for Cargill to arrange a service project for their company employees to accomplish while they participated in a marketing conference in New Orleans. Mr. Stark called Nancy Thompson, Safe Harbor Board of Directors, concerning a project for the domestic violence shelter in Mandeville. She suggested a “welcome package (basket?)” of numerous items for the women and children to use while housed at Safe Harbor. The Cargill employees assembled and presented the welcome packages while visiting New Orleans.
