Stirling to provide management for Touro Infirmary

Stirling Properties, with offices in Hammond, will provide facility management services for Touro Infirmary's medical office buildings, said Donna Taylor, a company vice president.

The firm will oversee 11 buildings on Touro's New Orleans campus totaling approximately 248,000 square feet.

Touro Infirmary had previously provided management services in-house. Touro issued a request for proposals for firms to help in managing and preparing for the growth the medical facilities will experience during the rebuilding in New Orleans.

Taylor attributes Stirling's selection to the firm's vast experience.
