

2010 Executive Level Members

Executive level investors represent St. Tammany West's largest businesses and the highest tier of Chamber membership. The Chamber's total membership is comprised primarily of small businesses, yet the contributions of our Executive level members provide 25% of our total budget. Executive level membership is open to anyone who elects to join the Chamber at this level of investment, and is the investment amount required of businesses with 76 or more employees. The support given by these members is fundamental to the Chamber and our mission, and reflects their commitment to the entire St. Tammany West business community.
